

EASTER EGG DECORATIONS

DIRECTIONS:

Removing the yolk

1. With your raw egg in one hand, carefully puncture one end of the egg with a safety pin. Be very careful.
2. Move the pin around so that the hole becomes larger, and hopefully the yolk will break.
3. Puncture the other end of the egg in the same way.
4. Hold the egg over a bowl and allow the yolk to drain.
5. When you no longer feel egg yolk inside, rinse off the outside and let dry.
6. Repeat this process for as many eggs as you want to decorate.

Otherwise for a more kid friendly option

1. Boil the eggs in a saucepan of water for 5 - 7 minutes.
2. Remove and place in cold water for a further 30 minutes.
3. Set aside hard boiled eggs to decorate.

EGG DECORATING IDEAS

Idea #1

Cover the egg shell in glue and cover it in colourful glitter. This works best if the glitter is in a bowl so the eggs can be fully submerged. Disco eggs!

Idea #2

Go in to your backyard and pick up pretty findings from nature - leaves, flower petals and grass. Glue these bits to your eggs for a more rustic look to your Easter basket.

Idea #3

Get the paints out and paint your eggs with your favourite colours. Get creative and paint squiggles and lines around your egg.
